**Product code**

PU43: Palco LV spotlight Ø 37 - Medium beam

**Technical description**

Miniaturised adjustable spotlight with adapter for installation on a 48V Filorail low voltage track. Made of die-cast aluminium with passive dissipation system. The adapter is made of a thermoplastic material and includes a driver circuit with PWM (Pulse with modulation) technology. The integrated PWM technology allows the light intensity to be adjusted by creating the effect of a dimmed light without altering the quality of the light. The swivel joints allow the spotlight to be rotated by 360° and tilted by 90°. The set back position of the optic unit guarantees a high level of visual comfort. Thermoplastic high definition lens with extra filter for variable optic. A rapid tool-free system for connecting the adapter electrically and mechanically to the track.

**Installation**

On a low voltage Filorail track. A tool-free system for connecting the product electrically and mechanically to the track.

**Colour**

White (01) | Black (04)

**Weight (Kg)**

0.1

**Mounting**

Low voltage track

**Wiring**

LED driver integrated in adapter - direct connection on 48V track. Track power supply unit to be ordered separately.

**Notes**

Technical and anti-glare accessories available.

The miniaturized projectors use the DALI Broadcast protocol and can only be installed on the straight section of the track.

Complies with EN60598-1 and pertinent regulations

IP20
