Product configuration: R234

R234: Frame Ø 125 - Wide Flood beam - LED

Product code

R234: Frame Ø 125 - Wide Flood beam - LED

Technical description

Ring luminaire with 12 optical elements for LED lamps - fixed optics. The optic system guarantees a high level of visual comfort and no glare. The body includes a radiant surface made of die-cast aluminium. Version includes a perimeter surface frame. High definition reflectors made of thermoplastic material vacuum-metallised with aluminium vapours, integrated in a set-back position in the anti-glare screen. Supplied with a power supply unit connected to the luminaire.

Installation

Recessed with steel wire springs for false ceilings from 1 to 25 mm thick - Ø 125 installation hole.

Colour

White (01) | Black / Black (43) | Black / White (47) | White/Gold (41)* | White / burnished chrome (E7)*

Weight (Kg)

0.34

* Colours on request

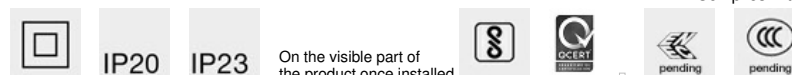

Mounting

ceiling recessed

Wiring

On the power supply unit with terminal board included. Available in DALI versions.

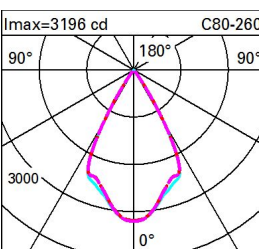

Complies with EN60598-1 and pertinent regulations

The graph displays the spectral power distribution of three light sources (QC A, B, C) plotted against wavelength (nm) and luminance (cd/m²). The x-axis is logarithmic, ranging from 10² to 10⁴ nm. The y-axis is linear, ranging from 45° to 85°. Three curves are shown: QC A (red dashed line), QC B (blue solid line), and QC C (green solid line). The curves show a peak around 500 nm and a secondary peak around 750 nm. The luminance values are indicated by the y-axis labels: 45°, 55°, 65°, 75°, 85°.
