### Product configuration: R939.G2

R939.G2: L=3175 mm - DALI - down emission - Black / clear space

### Product code

R939.G2: L=3175 mm - DALI - down emission - Black / clear space

### Technical description

Luminaire L = 3175 mm complete with LED lamp in neutral white colour tone 4000K. Body made of extruded painted aluminium and a thermoplastic raster with a white finish or a patented "Opti Diamond" technology, translucent textured thermoplastic raster created with a catadioptric system and no galvanic treatments. Product with high efficiency down emission LED  $UGR < 19$   $L < 3000$  cd/mq  $\alpha > 65^\circ$  emission, for use in environments with video monitors in compliance with EN 12464-1. The DALI driver is housed in the upper part of the luminaire. Possibility of pendant or surface-mounted installation using kit to be ordered separately as an accessory. The luminaire can be installed individually or in a continuous line, creating an uninterrupted light line.

### Installation

Pendant or surface-mounted installation using a kit to be ordered separately.

### Colour

Black/White Transparent (G2)

### Weight (Kg)

9.94

### Mounting

ceiling surface

### Wiring

Product complete with DALI components. Possibility of integrating ILS components available as accessories. The electrical cables used are made of a "halogen free" material.

### Notes

The accessory kit for pendant installations includes a pair of end caps for individual installations.

Complies with EN60598-1 and pertinent regulations

IP20
