BA01_01: L=2772 mm - INVERTER - down emission - White

RA01.01: L=2772 mm - INVERTER - down emission - White

Luminaire L = 2772 mm complete with LED lamp in neutral white colour tone 4000K. Body made of extruded painted aluminium and a thermoplastic raster with a white finish or a patented "Opti Diamond" technology, translucent textured thermoplastic raster created with a catadioptric system and no galvanic treatments. Product with high efficiency down emission LED UGR<19 L<3000 cd/mq $\alpha > 65^\circ$ emission, for use in environments with video monitors in compliance with EN 12464-1. The DALI driver is housed in the upper part of the luminaire. Possibility of pendant or surface-mounted installation using kit to be ordered separately as an accessory. The luminaire can be installed individually or in a continuous line. Product complete with INVERTER kit for emergency operation.

Pendant or surface-mounted installation using a kit to be ordered separately.

Weight (Kg)
8.76

ceiling surface

Product complete with DALI and INVERTER components for emergency lighting. Possibility of integrating ILS components available as accessories. The electrical cables used are made of a "halogen free" material.

The accessory kit for pendant installations includes a pair of end caps for individual installations.

Complies with EN60598-1 and pertinent regulations
