

Frame with a honeycomb louvre that can be installed on a Linealuce 27 surface Full Remote - L=625mm

Last information update: July 2024

Accessory code

X700: Frame with a honeycomb louvre that can be installed on a Linealuce 27 surface Full Remote - L=625mm

Technical description

Accessory made up of two parts: an installation frame and a honeycomb louvre that can be installed on a Linealuce 27 surface Full Remote L= 625mm. The extruded aluminium installation frame is subjected to a multi-step, pre-treatment process, in which the main phases are degreasing, fluorozirconation (a protective surface film) and sealing (with a nano-structured silane layer). The following painting stage consists of a primer and a liquid acrylic paint, cured at 150°C, with a high level of weather and UV ray resistance. The installation frame will be available in 4 finishes. There are polycarbonate closure caps with an opening for water outflow in the final part of the frame. The louvre is made of liquid painted aluminium and is always black. The accessory can be installed on the product using the screws and stainless steel screws and washers supplied with the code, in a separate bag. The cut-off angle for the frame accessory with a honeycomb louvre is 42° on the long side and 38° on the short side.

Colour

White (01) | Black (04) | Grey (15) | Rust Brown (F5)

Weight (Kg)

0.26

Mounting

wall arm|wall surface|ceiling surface
