PF68: DALI-2 Touch Display 4" Plus

Technical description

Light management panel for DALI and DALI-2 luminaires, with 4-inch, 480x480 px colour touchscreen - Controls TWRGB/RGBW/RGB/TW (DT8) and monochrome luminaires in broadcast mode with no (Plug & Play) programming. The panel also allows TWRGB/RGBW/RGB/TW (DT8) and monochrome luminaires to be programmed and groups/scenes created: considering the small dimensions of the display, we recommend using the 7-inch panel for this requirement (code PF69). Functions: controls brightness, colour temperature and colours from palette, screen-configurable widgets, groups and scenes.

Installation

Mounted on a common wall-mounted, recessed 2-module box (passo 60 mm) or panel, using the flange included. Wall-mounted, recessed box accessory available code ML15, to be ordered separately.

Colour

White (01)

Weight (Kg)

0.1

Mounting

wall recessed

Wiring

DA-DA line for connecting luminaires for a max of 64 DALI addresses.

The DA-DA line must be fitted with an accessory DALI power supply (code M630 available, to be ordered separately).
