Product configuration: B773+1769

B773: Down/light wall-mounting large body luminaires Professional version with fixed optic (AL)

**Product code**B773: Down/light wall-mounting large body luminaires Professional version with fixed optic (AL) **Attention! Code no longer in production****Technical description**

Direct lighting system for use with 70W HIT discharge lamps with asymmetric longitudinal fixed spot optic. Optical assembly, wall base, and frame all made of die-cast aluminium alloy with acrylic liquid paint finish that is highly resistant to atmospheric agents and UV rays; sodium calcium transparent tempered glass, 4mm thick, is connected with silicone to the frame. Two painted thermoplastic covers complete the wall base. Silicone water tight interior gaskets. Fastening steel cables between the lower frame and the optical assembly and between the optical assembly and the wall base. 99,96% ultrapure aluminium reflectors. Various accessories available: refractor, anti-glare spill-ring, diffusing glass and coloured filters. All external screws are A2 stainless steel.

Installation

Wall installation with down light emission.

Colour

Grey (15)

Mounting

wall arm|wall surface

Wiring

Double PG13,5 polyamide cable clamp for pass-through cables. Connection between the terminal box and the control gear via quick connecting terminals. Power supply group with electronic control gear.

Complies with EN60598-1 and pertinent regulations

960°C

IK07

IP65
