with specular metallic optics and electronic control gear - 2 x 26W/32W/42W TC-DEL/TC-TEL
Attention! Code no longer in production

Product code
 6289

Technical description

Recessed luminaire for compact fluorescent lamps. Made of self-extinguishing thermoplastic material, specular metallised scratch-resistant reflecting surface. Shaped painted sheet-steel heat dissipator. The steel wire springs guarantee rapid efficient installation in all types of false ceilings. The electronic control gear integrated in the remote box connected to the main body include the multiwatt ballast for two 26, 32 or 42W lamps. Centring device for optimisation of luminous emission of light sources.

Installation

Universal installation on false ceilings ranging from 1 to 25 mm in cross section. Hole on false ceiling 250 x 250 mm

Dimension (mm)

270x270x100

Colour

White/Aluminium (39)

Weight (Kg)

1.27

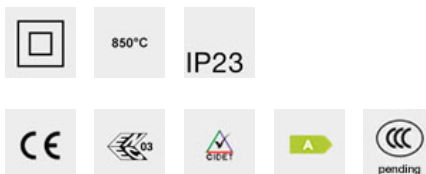

Mounting

ceiling recessed

Wiring

Electronic control gear contained in box integrated into the luminaire.

Complies with EN60598-1 and pertinent regulations

Product configuration: 6289+1652

Compact fluorescent lamp 42W GX24q-4 4000 K (Osram)
