Accessory code

SQ62: Cover base for power supply - with lux/motion sensor for DALI-2 - with power and pendant cable

Technical description

Cover base for power supply and control plate fitted with a Libera element with a lux/motion sensor for DALI-2 systems. Complete with power and pendant cables L=3000 mm and a millimetric cable adjustment system. To be completed with a power supply plate, to be ordered separately.

Installation

For the correct positioning of the base that determines the position of the sensor, refer to the instruction sheets or contact iGuzzini..

Colour

White (01) | Black (04) | Black/Brass (57) | Titanium (N8) | Sapphire blue (N9) | Titanium/Brass (Q3) | Sapphire blue/Brass (Q4) | White/Brass (U8)

Notes

This code is compatible with the power supply plates for the 35-60-100 and 150 W DALI-2 system sensor.
For DALI-2: the motion and/or daylight control function must be operated through a DALI-2 controller system/app programmed for this purpose. Contact iGuzzini for the systems compatible with the DALI-2 sensor.

Complies with EN60598-1 and pertinent regulations

IP20

Technical data

Control: DALI-2 sensor
