
Aluminium flange for installation on poles ø 120 mm - for 1 projector Palco InOut ø83-ø119-ø137-ø153**Design iGuzzini****iGuzzini**

Last information update: March 2023

Accessory code

X416: Aluminium flange for installation on poles ø 120 mm - for 1 projector Palco InOut ø83-ø119-ø137-ø153

**Technical description**

Aluminium die-cast flange with surface treatment by texturised liquid painting. It can be installed on any ø120mm-pole with no need to make holes for mechanical anchoring. It permits rotating completely the projector in all directions thanks to the combined projector/flange rotations (continuous) and bracket/flange rotations (360°). Installation is guaranteed by stainless-steel nuts, bolts and screws. Each flange has hexagonal seats for nut antirotation.

Installation

Installation on ø120-mm cylindrical pole by means of four M8x45-mm screws and four self-blocking nuts - all in stainless-steel

Colour

White (01) | Black (04) | Grey (15) | Rust Brown (F5)

Weight (Kg)

2.08

Wiring

The power-supply cable passes through a cabling sheath (hole diameter = 15 mm) to enter the pole.

Complies with EN60598-1 and pertinent regulations

960°C
